

HASPRO MOLD 6P Moulded - Waterproof!

(Product card)

INFORMATION

HASPRO MOLD 6P are silicone, easily moulded reusable earplugs. They are made of high-quality silicone that is hypoallergenic and soft to the touch. HASPRO MOLD can be formed in the palm of your hand like modelling clay, thanks to which within a few seconds you can get the perfect shape fully suited to the user's ear. The set contains 6 pairs (12 pieces) of moulded ear plugs.

WATERPROOF, SEALED EAR PLUGS FOR THE SWIMMING POOL

Mouldable earplugs are a great solution for people who must avoid contact between the ear canal and water for health reasons. They perfectly adapt to the ear canal by filling its external part, thanks to which they block every drop of water. They work well both in the swimming pool, in the open water and wherever there is a risk of water getting into the ear.

MOULD THE SHAPE TO YOUR EAR

HASPRO moulded earplugs are also a solution for people who have tried other ear plugs and because of the unusual shape of the ear they could not get comfort during use. Our plugs are molded, like plasticine, you can adjust their shape to almost every ear, whether it is an adult or child ear canal.

SLEEP, WORK, RELAX, BOOK

The high level of fit to the ear and optimal attenuation also makes them one of the best sleeping plugs - comfortable when sleeping on your side, they don't disturb you. Also invisible under the helmet, thanks to which they provide optimal protection and comfort while riding a motorcycle. Suitable for DIY or relaxing while reading a book.

Why is hearing protection so important?

Being in high level of noise for a long time can negatively affect our mood, concentration and our effectiveness. The longer we are in excessive noise, the faster we feel fatigue, which turns into pain and dizziness and can even lead to health problems such as damage to health in the form of damage to the organ of hearing.

In accordance with art. 38 of the Act on Consumer Rights, the product mentioned above is not returnable for hygienic reasons if the packaging was opened after delivery and the product was used.
